

Workshop Three Programme

Version 5: Final as at 19 November 2015

Purpose of the Project: To inform and encourage public discourse and engagement regarding civics and media, with the ultimate aim of informing decisions by individuals, industry and institutions across society.

Output of Workshop 2: Nine visions with one overarching vision: To ensure all New Zealanders in 2030 have an accurate understanding of the world they live in, and the ability and skills to bring about change.

Purpose of Workshop 3: How would you go about making the nine visions a reality in 2030? This workshop will explore a way New Zealand might deliver on these visions, individually or together, over the next 15 years.

Output of Workshop 3: An influential think piece published in a booklet that chronicles and articulates the thinking of all three workshops as at the end of November 2015.

	Purpose	Speakers
